

During daily activity periods, YOU decide which of the programs you would like to attend...and then just show up to location listed. A few activities DO require advance sign-up due to limited space and/or additional fees. They are: Tracking (no fee), CGC Test (\$10), Dog Fur Spinning (no fee) and Treatmaking with Patti (no fee).

Only activities listed with a ☆ require sign-up!
(SIGN UP SHEETS LOCATED IN DINING HALL.)

Private consultations & special offers may also be available at camp through some staff and presenters. To take advantage of these offers, you must sign-up, and pay any associated fee directly to that staff. Sign-up activities include: Human Massage, Canine Massage, Photo Portraits, Focused Obedience, Behavior or Agility consults, Grooming consult, and Animal Communication. See the box at the end of this schedule for a list of many of the available staff doing privates.

Extended Campers: Please feel free to use the beach, hike the trails, play on an empty field, or relax in Ruth Lodge or the New Lodge Lounge. This is your extra time at camp. **Our vet is NOT on-site until Friday at noon. The Barking Lot is staff supervised during meals starting at Friday dinner.**

- **George Berlin** available for Personal Doggy Cartoons all day on Sunday. Sign-up early to get a custom work of art!

See sign-up sheets in Dining Hall for times and fees for private time and appointments with the staff listed in this box above.

ASK DR. JANE / ASK THE VET

This is an open forum session where you can informally ask our camp vet, Dr. Jane questions regarding canine health. In addition, these sessions can be used as a time for round table discussion about such topics as managing arthritis, use of supplements, vaccinations, allergies, etc. Just let Dr. Jane know what you would like to talk about.

CALMING THE STRESSED CANINE

Looking for safe, effective, natural ways to calm your dog during high stressed situations? In this session we will be talking about several "natural" options for calming your dog during high stress time: dog shows, training classes, thunderstorms, fireworks and changes in the household.

CANINE CORE CONDITIONING:

In this class you will learn how to safely exercise your dog to improve core strength, coordination, flexibility, balance, and proprioception. These exercises are important for conditioning your dog for various dog sports, preventing injuries and aging gracefully. These exercises are also great for building your dog's confidence. You will get plenty of time to try various pieces of equipment such as: cavaletti poles; exercise ball, egg, and peanut; wobble board; rocker board; and tilt board. Bring lots of small treats and get ready to have some fun with your dog!

CANINE GOOD CITIZEN (CGC) PREP / TEST

The CGC Prep session is designed to prepare those of you who are interested in taking the CGC test at camp or at some point in the future. The CGC Prep session is also a great way to "brush-up" on basic obedience skills even if you do not plan on taking the test. The fee to take a CGC Certification Test at camp is \$10. You may also arrange an alternative testing time if you have a conflict during the CGC Testing time on camp schedule. See Wendy or Dennis to arrange an alternate time.

CANINE HEALTH WITH ESSENTIAL OILS:

In this session, Tresa will give you ways to use essential oils for common issues with our dogs. Flea/tick prevention, focus issues, naturally cleaning your home and simple ways you can use medicinal essential oils to care for your canine family members.

CANINE MASSAGE & TOUCH FOR TRAINING

Catch Jim from Lure Coursing anytime between open lure times and arrange a mini-carting-session on the spot...or attend his informal Demo and Carting Intro session after lunch on Sunday at the Lure Course field.

CANINE RESCUE BREATHING & CPR (NOT CERT.)

Pet First Aid is the immediate and temporary care given to an injured animal until it can be taken to a professional veterinarian for more definite medical care and attention. The goal of Pet First Aid is to protect both pet owners and their pets from further harm, injury, or suffering during emergencies, by teaching prompt, effective actions and care that will safeguard the life of an injured pet. Learn Canine Rescue Breathing & CPR skills without a full certification class. Sign up for 30 minute blocks & learn the basics of these important skills.

CARTING

Catch Jim from Lure Coursing anytime between open lure times and arrange a mini-carting-session on the spot...or attend his informal Demo and Carting Intro session after lunch on Sunday at the Lure Course field.

COACHING A REACTIVE DOG TO SUCCESS

Camp Dogwood has the orange bandanna policy to protect dogs that don't know how to cope with other dogs or people coming into their personal space. For some dogs, their "personal space" even includes any room or yard that they are in. These are not "bad" dogs. They are simply "reactive" dogs. Session was created to help owners of reactive dogs understand why dogs do what they do, how to protect them from situations that they are not able to succeed in, and to teach simple exercises that will make you and your dog more comfortable & make camp more enjoyable for you and your four-legged family member.

DOGA

Based on the "Barking Buddha" by Brenda Bryan, yogis will follow a traditional Hatha yoga practice with their dog as a partner. Doga will help to connect and unify the dogi & yogi. Please bring yoga mat if you have one! No Doga (or yoga) experience required for this class.

FREESTYLE DANCE

Try this hot new sport that is everyone is talking about! If you like to teach your dog new things, come to this class and have some fun. Learn to teach your dog to do under, zig-zag, loop, pole, circle, gee, haw and take a bow. In the intermediate class we will be doing more advanced moves. At the end of the class we will put it all together with music. A reward-based class so be sure to bring a lot of soft tasty treats for your dog!

GET FOCUSED

Does your dog get distracted easily? Jump on your visitors? Or get over-excited when they see their friends? In this class you will learn some fun and creative methods to help your dog to "Get Focused!" You will learn how to improve your dog's impulse control, improve their focus on you and to relax on cue. You will also learn response substitution (redirection) to prevent your dog from getting into trouble. Don't expect to do a lot of hard work in this class because you both will have lots of fun! **Because you need to focus on your dog, it is suggested to only bring only one dog to this class.

GROOMING SECRETS

In this session, Tammie will share her grooming knowledge and help you with home grooming care of your pet, including bathing, brushing, and reducing tangles and/or shedding. A variety of grooming tools will be available for you to try on your dog to see what works best for both of you. There will also be time to ask any questions you may have about home grooming or taking your dog to a professional groomer.

LEARN TO DRAW YOUR DOG W/ GEORGE BERLIN

Using basic shapes, we'll learn how to make fun drawings of your furry friend. Bring photos of your pal, paper and something to draw with. No Rembrandts by the end of it, but it'll be fun! You can work on your drawing all day while George does his Painting Portrait Sessions all day long.

RALLY GAMES

Here's a fun way for you and your dog to practice rally with friends. Teams will be set up to play games like Rally Tic-Tac-Toe and Rally Relay. The games are suitable for anyone familiar with the basis rally signs. Come alone or w/ friends for some good natured competition.

RALLY SKILLS: IMPROVING THEM

During this session you will learn fun and positive ways to improve the skills needed to perform the rally exercises as well as traditional obedience. Some points of emphasis will include the turns, pivots, call to front, and finishes. This session is appropriate for beginner to advanced rally teams.

SHY DOG TRAINING

Learn, practice and discuss techniques to use to help your Shy dog overcome it's fear. This class will focus on establishing protocols that you can use in everyday life to help your dog.

TEACHING YOUR DOG TO TARGET

Targeting is a "hands off" way of teaching different behaviors for both fun and serious obedience. Targeting is one of the best methods for getting dogs quickly engaged, focused and excited about teaching sessions.

TREATMAKING WITH CHEF PATTI

These cooking classe always result in some delicious treats for everyone to enjoy and reciepes to take home and enjoy again and again. Due to the over popularity of this activity there is now a Sign-Up sheet and multiple sessions offered so everyone can enjoy!

TRICK TRAINING

Tricks are a great way to keep your dog busy, mentally stimulated and have a lot of fun. You will learn to use various methods of training to teach your dog some fun new tricks including: play dead, bow, weave through your legs, do the moon walk, and push a baby carriage. If your dog already knows some of these you will learn how to teach more complicated versions of each of these. Tricks are great for therapy dogs or dogs that just like to show off!

WEIGHT PULLING

Weight pull is akin to a human tractor pull. The dogs wear a special padded harness, and are attached to a wheeled cart on an earthen surface, or a sled on snow. The goal is to see how much weight the dog can pull on the cart/sled for a distance of 16 feet. In competition, the handler can have no physical contact with the dog during the pull, and they are not allowed to "bait" the dog at the end of the pull, with anything other than themselves. It is up to the dog's willingness to pull the weight to close the distance between himself and their handler!

WEIGHT PULL MINI-COMPETITION

This will be set up like a real pull, and run like a real pull. Campers who have been successful with their dogs pulling the cart can participate. Dogs will line up in order, and will pull one at time starting with the lowest weight. The weight will go up in increments and if your dog does not successfully pull, you're "out." Each dog will get 60 seconds to complete the pull, and campers ARE allowed to use treats/bait since this is for fun. People not participating are welcome to watch and cheer the dogs on.

Camp Dogwood Spring 2013

Schedule and Activity, Speaker & Presentation Reference Page

Inside this page is your weekend Camp Dogwood Schedule and Camper Packet. Use this to help you decide what you and your dogs' days will hold, and where you'll need to be for your selected activities. You may attend as many or as few activities as you wish...**just make sure not to over-do it!** And always allow your dog (and yourself) to rest and cool down between activities. Have a great weekend!

AGILITY LEVELS & QUALIFICATIONS *(Levels are based on the member of the team (human or dog) that is LEAST skilled):*

- LEVEL 1:** New - Never been on agility equipment before; or very limited experience; or extreme flight risk; or scared of multiple obstacles. (Lack of weave pole/teeter proficiency not included) Focus on equipment and lead hands and exercises for focus, attention and handling skills.
- LEVEL 2:** Some experience on all of the equipment (at low or moderate height). Sequencing short sequences. Has only done agility at camp, attended at least one camp previously, and/or has some training outside of class. Intro to crosses (front & rear).
- LEVEL 3:** Comfortable on all equipment at full height (teeter excluded, & weaves poles mostly straight up but can be open). Sequences up to 10 obstacles. Working knowledge of crosses (front & rear). Regularly trains in agility or has successfully completed many camps/agility training with this dog. Review/improve crosses (front & rear).
- LEVEL 4:** Competition or equivalent. Works equipment full height, teeter & weaves, too. Sequences 16+ obstacles. Trains agility regularly.

• FLYBALL **Beginner:** No experience or learning basics.

Intermediate: Must have any experience in flyball...Can include sessions at camp.

• FRISBEE **Beginner:** Learn basics of "finally" throwing the Frisbee properly & getting your dog to catch it. Many r naturals! **Intermediate/Freestyle:** For dogs adept at catching a Frisbee, this session will help develop beginning 'freestyle moves' like overs, flips, & vaulting.

• K9 NOSEWORK (Level 1) Inspired by working detection dogs, K9 Nose Work is the fun search and scenting activity for virtually all dogs and people. This easy to learn activity and sport builds confidence and focus in many dogs, and provides a safe way to keep dogs fit and healthy through mental and physical exercise. This workshop will introduce you and your pooch from the beginning to Nose Work.

- (Level 2) This one is for dogs who have been introduced to nose work and are working more complex hides. Dog can still be on food or on odor.

• LURE COURSING For the safety and well-being of the dog, lure can be run at many levels...depending on experience, age and conditioning. Please let the fantastic Pat & Jim know your dog's health so speed & appropriate suggestions can be made.

• RALLY OBEDIENCE (And Rally Skills & Games) Rally-O will be taught on Saturday morning (Period #1) at a Beginner/ Review pace, and at all levels for remainder of the weekend. Practice & polish your skills & participate in Mini-Trials, Monday morning.

• TRACKING Teaching your dog to follow the scent trail or disturbed vegetation scent, left by a person (or other animal) that has traveled along a certain route. Dogs can be taught to footstep track (very precision oriented tracking style), trail (the dog still follows the scent left on the ground, but with less precision than footstep tracking), or air scent (use the scent in the air to determine in which direction the person/prey went). Dogs should be hungry when learning how to track!

• TREIBBALL Treibball is a new sport imported from Europe where dogs use herding skills to drive exercise balls into a pen. In this activity you will be introduced to herding commands to train your dog to move left and right and to push the balls toward the pen. Your dog will use it's nose or shoulder to drive the balls. Any dog who loves to chase, retrieve or herd will enjoy this sport.

NO-SEW FLEECE CRATE MAT

You campers are crafty. Very crafty. So much that we've kept our after-dinner craft-project instruction with **Lisa Hiller**, long-time camper. This project is a No-Sew Fleece Crate Mat. If you think you'd like to attend, please BYOF (Bring Your Own Fleece)...or come enjoy this crafty hour and learn it for later.

PLASTER PAW PRINT CASTINGS

One of the long standing Arts and Craft projects we've offered from the start at Camp Dogwood. A very easy project for those with patient dogs, or just patience for their dogs excitement. A great Dogwood keepsake of your dog's paw. Easy, NOT messy!

DOG SILHOUETTES

Our ancestors did not do craft projects with their dogs, but they definitely knew how to trace each other's heads. Come make either a traditional black and white Dog Silhouette, or put some color into a snazzier, modernized and blinged-up version. (Bring an images of your dog to this session.)

PLANTER/BUCKET DECORATION

Camp Dogwood is a great place to use that creative spark you know you have. Come decorate a planter or toy bucket (or any smooth-surfaced item you may have decided to bring to camp. We have vinyl in plenty of colors and cut shapes and plenty on decorative embellishments you can adorn your masterpiece with, too. There are a number of items available for camper use to decorate, but they're all on a first-come, first-served basis. We ask campers to select only one to begin with. Enjoy!

LEARNING TO DRAW YOUR DOG

George Berlin is in the house on Saturday to do what he does so well. This session he'll be working in watercolors to create your personalized masterpiece. They say "those who 'can', do, and those who 'can't', teach". Well we know that George can do, but can he teach. Come to this session to hear some of the tricks of the trade on how an artist turns what they see into art on a page. The class will be working in pencil on paper. Activity Period 2 on Saturday.

SMALL DOG or PUPPY AREAS & TIMES

When Flyball is not in session in an Activity Period, the Flyball field is designated an off-leash area for **Small Dogs (under 25 lbs) and Puppies only**. There are times on the schedule when the lakefront/beach is also designated Small Dog & Puppy only. Please respect this size and age restriction as scheduled.
